## ASSISTANT CHIEF ENGINEER

The Assistant Chief Engineer supports the Chief Engineer in the daily operation of all engineering, maintenance, utilities, landscaping, and asset protection services at Samoa Beach Resort. The role ensures facilities are safe, compliant, and running efficiently, with a strong focus on guest satisfaction, asset protection, and sustainability. This position also plays a key role in supporting the Resort's rebranding and long-term improvement plans.

### **Qualifications:**

- Degree or equivalent qualification in Engineering (Mechanical, Electrical, or Civil)
- Previous engineering or facilities leadership experience
- Strong knowledge of health, safety, and regulatory compliance
- Willingness and ability to work shifts, including late nights, weekends, and public holidays
