## PRESS RELEASE

### INTEREST DECLARED 2014 – 7.5%

The Samoa National Provident Fund Board under section 36 of the SNPF Act and its Amendments has declared a rate of interest of 7.5% for its members in respect of this financial year ending 30 June 2014. The 7.5% interest shall apply to the following;

- I. National Provident Fund
- II. Judiciary Retirement Fund and
- III. Education Fund

The total cost of the interest declared this financial year is 30 million. The annual interest declared shall be credited to the above accounts by close of business 30<sup>th</sup> June 2014.

Contribution balance as at 1 July 2013 is the basis for the calculation of the interest declared provided that no withdrawals were made within this financial year.

#### Education Fund

An amendment to the SNPF Act in 2010 has allowed members to open an 'education fund' with NPF where they can save and grow funds to finance their children's tertiary education. The quicker you start, the more you can save money to ensure your children will receive quality tertiary education at a University of your choice. We encourage members to start an education fund once you have children. Members can contribute to it with a minimum of \$20 a fortnight and you can increase it any time. It attracts the same annual interest as the NPF contribution accounts. Terms and Conditions apply.

For further information, please contact our Member Services Department, level 4, SNPF Building Apia or by telephone 64800 or by email at [info@npf.ws](mailto:info@npf.ws)
